SEO/AEO Discoverability *Audit.*

See what Google ranks, what AI returns, and where you've gone invisible, in two weeks at most.

SEO/AEO Discoverability *Audit.*

A fixed-scope audit of your visibility across SEO and AI answer engines. For B2B teams unsure whether AI is surfacing them at all.

THE PROBLEM ON YOUR DESK

Buyers increasingly get their answer from an AI engine, never reaching your page at all. AI isn't reading your page anymore; it's extracting pieces of it. When an AI engine answers a buyer directly, the page that would have earned the click never gets seen. The question is no longer just whether you can rank.

OUR THESIS

The question is no longer just can we rank. *It's can we become the answer.*
